### CLINICAL TRIAL QUESTIONS TO ASK

Beginning something like a clinical trial can be scary and leave some patients with a feeling of uncertainty. We've provided a list of possible questions you can ask your doctor or provider to help give you more information as you consider clinical trials.

What is the purpose of the trial?

---

---

---

What are the possible side effects or risks of the new treatment?

---

---

---

How do the researchers believe that the treatment being studied may be better than the one being used now?

---

---

---

Will I have to pay for any of the treatments/tests?

---

---

---

How long will I be in the trial?

---

---

---

How far will I have to travel to participate in this trial?

---

---

---

What kinds of tests and treatments are involved?

---

---

---

Will I have to stay in the hospital during the clinical trial? If so, for how long?

---

---

---

How will the doctor know if the treatment is working?

---

---

---

Additional Notes About the Clinical Trial:

---

---

---

---

---

---

---

---

---

---

How long do I have to make up my mind before the trial begins?

---

---

---
